

Trade Facilitation COVID-19 & Crisis Response Package

1

Online Training Course

- The 9 certified online training modules cover diverse topics related to trade facilitation
- Available in English, French, Portuguese and Spanish

2

Webinars

- Conduct webinars on specific trade facilitation measures, including transit coordination, customs automation, and paperless measures

3

Advisory Services

i

Rapid Scan of National Emergency Provisions in Trade Facilitation

Undergo a desk based rapid scan of the framework of national emergency regulations

- Develop strategy for introducing emergency measures related to trade and transport
- Information to be featured on the country's respective trade portals to enhance transparency

ii

Trade Facilitation Advice for Emergency Situations and Recovery Plans

Provide clear and tailor-made guidelines in facing future challenges on trade facilitation due to health, economic or environmental crisis

- Include best practices implemented for countries and/or regions in similar situations
- Formulate list of steps to enhance National Trade Facilitation Committees' response during crisis

iii

Legal Package

Deliver assistance in building legislative and regulatory framework towards crisis and recovery response as well as implementation of the WTO Trade Facilitation Agreement and other trade facilitation tools

iv

Action Plan

Based on the previous services, UNCTAD can support National and Regional Trade Facilitation Committees to **prepare Action plans and an action checklist** for future emergencies
